EDUCATION

Pune Institute of Computer Technology

B.Tech in Computer Engineering (Lateral Entry - Direct Second Year) - CGPA: 9.82

Pune, Maharashtra

Aug. 2025 – May 2028

Marathwada Mitra Mandal's Polytechnic

Technical Diploma in Computer Engineering - Score: 96.11%

Pune, Maharashtra

Sep. 2022 – Jun. 2025

RELEVANT COURSEWORK

Data Structures & Algorithms · Object-Oriented Programming · Database Management Systems · Operating Systems · Computer Networks · Software Engineering · Complexity Analysis

EXPERIENCE

Software Engineer - Intern

Nov. 2023 – Feb. 2024

Accenture

Remote

- Developed and debugged **10+** backend API endpoints using Java Spring Boot, supporting integration of new features and improving data handling for enterprise client modules, reducing retrieval time by **15%**
- Contributed to responsive UI components using React.js, collaborating with a cross-functional Agile team to resolve front-end issues and enhance UX, improving frontend load times by **20%**
- Wrote and executed automated unit tests using JUnit, increasing code coverage to **75%** and ensuring software stability during bi-weekly sprint cycles.

Programming & Networking Intern

Jun. 2023 – Nov. 2023

Cisco

Remote

- Developed **15+** Python scripts utilizing NETCONF/RESTCONF APIs to automate network configuration tasks, reducing manual entry time by **40%** and errors during device setup.
- Built and tested network topologies in Packet Tracer and Cisco CLI; standardized **10+** documentation protocols for automation workflows, ensuring knowledge sharing across a remote, distributed team.

PROJECTS

Rotica | React, Node.js, PHP, GCP, MySQL, Jetpack Compose, Firebase | [Live](#) | [APK](#) | [Repo](#)

Nov. 2025 – Present

- Designed and built a sponsored full-stack food subscription app; integrating Razorpay, Firebase Auth, and real-time order tracking, processing over **INR 30,000+** in transactions; delivered customer lifecycle features including support ticketing, delivery calendars, and order customization.
- Engineered a role-based operations management web app for **80+** admin stakeholders with data visualization dashboards, real-time analytics, and **90%** unit and integration test coverage.

Axiom SAR System | Python, FastAPI, LangChain, LangGraph, Gemini, Vertex AI | [Repo](#)

Feb. 2026 – Mar. 2026

- Architected an agentic AI system for Automated Suspicious Activity Reports (SAR), designing system architecture to drive a **4x** reduction in operational costs and **50x** increase in productivity.
- Built AI-powered backend services using Python and FastAPI, orchestrating LangChain, LangGraph, and Gemini models to autonomously synthesize and evaluate complex report data.

VisionAI | Next.js, FastAPI, Python, GCP, Gemini, AI/ML, Vertex AI | [Live](#) | [Repo](#)

Mar. 2026 – Present

- Architected a distributed ML observability platform on **GCP Cloud Run**, implementing an asynchronous analysis pipeline via **asyncio.gather** that cut evaluation latency by **60%** and optimized memory by streaming **>500MB** model files directly from GCS.
- Engineered a **Causal Fairness Engine** and automated **CI/CD** fairness gate distributed via a custom **Python SDK**; leveraged an agentic **Sentinel proxy** to intercept pipelines, enforce a strict **0.8** Disparate Impact threshold, and execute zero-knowledge compliance checks in **<2 minutes**.

CERTIFICATIONS, ACHIEVEMENTS

Certifications

- Amazon ML Summer School (2026)
- CS50x, CS50 Python, CS50 SQL - Harvard University (2023–2024)
- Code in Place - Stanford University (2024)
- Advanced Data Analytics - Google (2024)
- Applied Data Science - IBM (2024)
- Cloud Foundations - AWS Academy (2023)
- Networking Essentials - Cisco (2023)

Achievements

- 1st Prize - Mastercard Code for Change Hackathon (2026)
- Top 10 Finalist - Google Solutions Challenge
- Winner - Inspiron 5.0, National Level Hackathon (2026)
- Authored "Impairment Assistance Software" - IRJMETS (2025)
- Authored "Crop Yield Forecast Using Machine Learning" - IJASTR (2025)
- Silver Medalist-Technofest, State Level Presentation (2025)
- 2nd Rank in Academic Merit - MMP (2025)

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, PL/SQL, JavaScript, HTML/CSS, R

Frameworks: React, Node.js, Flask, TensorFlow, Spring Boot, FastAPI

Cloud & DevOps: AWS (S3, RDS), GCP, Azure (Microservices, Container Apps), Docker, Firebase, Render, CI/CD

AI & ML: LLM Orchestration, Prompt Engineering, LangChain, LangGraph, Gemini, Vertex AI

Databases & Tools: MySQL, PostgreSQL, NoSQL, Git, Postman, Jupyter, Selenium, Packet Tracer
